

Vision Magazine

VISION magazine is published twice a year, and is Australia's only magazine written for families and educators of children with gifted and talented potential.

Vision Magazine

VISION magazine is published twice a year, and is Australia's only magazine written for families and educators of children with gifted and talented potential. In circulation since 1985, VISION magazine boasts strong editorial content, with articles that connect research and policy to families and educators in Australia and beyond. It includes insights into the lived experiences of children and families and provides research-based tools and strategies to support the various developmental and educational needs of children. Articles are written by educators, parents, specialists, and children. VAGTC welcomes contributions from the community.

VISION magazine is distributed to VAGTC members and associates including the state and federal departments of education, and educators across Australia and New Zealand.

Visit [memberships](#) to update your subscription to receive the two publications (as well as our biennially-published Resource Book) as well as other discounts and access to members-only online resources, or purchase a single issue through the [VAGTC online shop](#).

Submissions

VAGTC welcomes contributions from members and students and invite student submissions of artwork, photography, poetry and

short stories. Education-based best-practices, reflections and educator-submitted reviews and articles are also welcome. Submission guidelines are available via the [Submissions](#) page.
